

# Mini Treadmill/Oblique TGO942

Chief Medical Officer guidelines recommend all children and young people aged (5-18 years) should engage in moderate to vigorous intensity physical activity for at least 60 minutes every day. All TGO shortened and Mini range products are designed with development and ability in mind to prevent over working of joints and muscle groups that should not be stressed in young bodies.

This double unit is fantastic for gentler cardio activity. It includes a treadmill that uses a roller system set at a 3 degree incline to give the user the ability to jog or walk depending on their level of fitness. All the rollers are stainless steel with high quality ball bearings. This roller system means that the faster the user runs the faster they roll. The Oblique is a popular piece with all ages - twist from side to side whilst holding the hand rest to work your core muscles.

## Specification

1. 100% Made in Britain
2. Safety compliant to BSI PAS888 (legacy standard) for ALL ages, users and non-users but specifically to protect users of small stature and young people under 1.4m tall.

### Safety statement:

Statement provided by Independent RPI Inspector with over 35 years industry experience.

Fitness equipment aimed at young people falls outside of the Scope of EN16630 which specifically excludes equipment designed for users < 1,400mm high. Although superseded by EN16630, PAS888 is the only published National Specification that has a Scope (provided by SW/136 [CEN Standards Committee]) that incorporates Outdoor Fitness Equipment accessible by young people and children.

3. All TGO outdoor gym equipment is free from exposed end stops, entrapments, sharp edges and crush points

**ALWAYS ASK FOR THE SAFEST OUTDOOR GYMS**

# Mini Treadmill/Oblique

## TG0942

### Production Details

Manufacturer Standard: Safety compliant to BSI PAS888 (legacy standard) for ALL ages, users and non-users but specifically to protect users of small stature and young people under 1.4m tall.

Framework: Mild Steel Grade S275 (min 3mm thick)

Finish: High quality gloss finish polyester powder coat paint

Signage: High quality reverse printed PETG

### Enhanced Corrosion Protection

An enhanced corrosion protection is available on request for this product. Hot dip galvanising is the process TGO use to add a protective coating to the body of our products on our equipment in coastal areas, which have higher air salinity or in harsh urban and industrial atmospheres with higher sulphur dioxide pollution\*.

The upgrade includes:

- Upgrading to hot dip galvanising
- Fixings are upgraded from A2 to A4 stainless steel

\*An upgrade to galvanised steel will be necessary for the warranty in these environments.

### Installation

This product is installed onto one TGO Large Ground Anchor and a concrete pad. Please see the 'TGO Installation & Assembly Guidelines' for guidance on installing this anchor and the concrete pad. Refer to the diagram opposite for safety spacing.

### Safety

This product requires 1.5m of clear space around the equipment (green outline).

- Falling height: 0.24m
- Clear Space: 18.8m<sup>2</sup>

There is no safer surface requirement and therefore TGO only recommend a minimal surface area (grey outline).

### Parts List

No	Part	Dimensions	Weight	Qty
1	Treadmill Roller	L1275, W670, H217	76 kg	1
2	Treadmill Handle	L339, W414, H492	5 kg	1
3	Oblique Handle	L324, W414, H224	4 kg	1
4	Sign Frame	L670, W320, H1500	44 kg	1
5	Oblique Footplate	L695, W350, H245	18 kg	1
6	Large Anchor <sup>+</sup>	L777, W489, H344	23 kg	1

<sup>+</sup>Substituted with 6x HILTI fixings for surface mounted option

Clear Space Required  Recommended Surfacing  Base Plate & Centre Lines   
 (25mm tolerance added in each direction)

Ground anchor is separate, makes future upgrades easy!

25 YEAR WARRANTY MADE IN BRITAIN
